EDUCATION

Davao del Norte State College   2020 - 2024
Bachelor of Science in Information Technology

Laak National High School   2014 - 2020
Junior High School graduate with Honors
Senior High School graduate with Honors
Accountancy and Business Management

Kiokmay Elementary School   2008 - 2014
Graduated with Honors

EXPERIENCE

Department Of Science and Technology Region XI
Technology Intern
- Developed a new web system for the provincial office, streamlining the processing of customer responses, enhancing efficiency and accuracy.
- Monitored and ensured the smooth operation of newly deployed systems, providing support and troubleshooting as needed.

Davao del Norte State College (Institute of Computing)
Capstone Project
- Collaborated with government offices to ensure the smooth flow and feasibility of the project, leveraging expert guidance to ensure credibility and fostering community partnerships for successful deployment.
- Developed the hardware section of the project using Arduino and NodeMCU ESP8266 and trained machine learning algorithms, including dataset gathering and preparation, to provide key features for the project.

Municipal Planning and Development Services – Laak
Special Program for Employment of Students (SPES)
- Actively assisted in office activities, contributing to efficient workflow and supporting various administrative tasks.
- Provided valuable support in organizing community events and municipal projects, fostering a collaborative and productive environment.

Laak Multi-Purpose Cooperative
Senior High School Work Emersion
- Supported diverse office activities, including conducting land surveys to assess client loan collateral, ensuring accurate and reliable data collection.
- Executed accounting processes with precision, contributing to the accurate management of financial records and enhancing overall operational efficiency.
